

FIRE SAFETY AND FREE SMOKE ALARMS

Essex Fire and Rescue Service will visit your home free of charge to give you fire safety advice and, if appropriate, fit free smoke alarms with a 10 year battery to help prevent fire injuries and deaths. Statistics show you are twice as likely to die in a fire if you do not have a working smoke alarm. There are different types of alarm to suit people with specific needs, such as people who are hard of hearing. These alarms can also be supplied and installed free of charge. To arrange a free visit, ring your local fire station on 01279 420841 or 0845 601 2495.
